

KALABRONE

KALABRONE is the new shelf support for free-standing shelves created by Italiana Ferramenta Srl. Boasting a captivating design, it perfectly meets the actual market demands.

It is suitable for shelves from 8 to 30 mm thick. Its solid structure guarantees a capacity loading of 25 kg for each support with a shelf 320 mm deep.

KALABRONE comes with 2 adjustments:

- Vertical: through the oval hole positioned on the upper bracket
- Inclination: through an adjustable screw positioned on the main support

The soft element made of engineering plastic positioned on the upper bracket guarantees a perfect adhesion to the shelf, thus avoiding that the shelf is accidentally removed.

8-30 mm

25 kg for each shelf support
for shelf 320 mm deep

REGISTERED DESIGN

WOOD PANEL

Recommended fixing countersunk screw type - head Ø 5 mm max.

SOLID AND PLASTERBOARD WALLS

It is the responsibility of the customer:

- to ensure that the wall is of a suitable quality to hold the shelf fixing in place.
- to use the proper hardware fittings according to the construction of the wall.
